

In preparing a document that outlines your qualifications as a teacher, you should begin to think of yourself as an educator . The number one qualification is the fact that you are the parent . If you are a credentialed teacher, include that information, but do not be intimidated if you are not a state certified teacher .

Nearly all parents are capable to teach their own children . Be creative, but be honest . Put down any schooling, high school graduation and above . Include work experience, skills, hobbies, interests, and any personal information that adds to your qualifications to teach such as a love of traveling and adventure, an inquiring mind, or love of reading, etc . Other qualifications can be leader of youth organization, church school teacher, and attendance at educational conferences . CHEA of California holds such conferences twice a year . (Schools call this In-Service Training .)
